The location for LOCAL MILAN No.4 is housed within the same Palazzo complex as our 2018 show, directly next to the 5 Vie head office and press point. The building for the past few years has housed the Diesel Living temporary showroom. This two level space will be completely transformed in regards to interior finishes, colours and surfaces to work directly with your designs and LOCAL DESIGN's creative direction for the 2019.

We are so excited to continue this journey with you, to further the creation of Australia's design aesthetic and narrative on a global stage. With the number of Australian designers based here and overseas, growing alongside this show.

Grazie Mille
